💼 Work Experience

Senior Software Developer

TaavSystem

Shiraz, Fars, Iran

December 2023 - April 2025

Tasks and Achievements

Contributed to the development of multiple ERP-focused applications, including Dastranj Expo Plus and Kando, as part of cross-functional product teams.Acted as Scrum Master in several sprints, facilitating Agile ceremonies and promoting efficient team collaboration under Agile/Scrum frameworks.Implemented secure JWT authentication with refresh tokens to ensure stable and secure user sessions.

Mobile Lead Developer | 4030 Taxi App

Baram Company

Shiraz, Fars, Iran

July 2025 - September 2025

Tasks and Achievements

- Led the mobile development team and mentored junior developers, fostering growth and knowledge-sharing across the team.
- Architected and delivered large-scale, high-performance mobile applications with critical infrastructure, ensuring stability and reliability under high load.
- Implemented Agile/Scrum methodologies, improving collaboration, sprint planning, and project delivery efficiency.
- Designed and integrated complex map systems and real-time features, enabling seamless location-based services for users.
- Developed secure, scalable app infrastructure with attention to data privacy and application security.
- Established CI/CD pipelines for automated builds, testing, and deployment, reducing release time and maintaining high code quality.
- Collaborated closely with cross-functional teams to ensure user-centered design and functional excellence.
- Contributed to strategic decisions on architecture, scalability, and performance optimization across multiple app versions.
